SPEAKER TO DISCUSS
ENERGY CONVERSION
WITHIN PLANTS AT UM

Dr. Martin Gibbs, chairman of the Brandeis University Department of Biology, will discuss "Photosynthesis Investigated with the Chloroplast" Monday night at the University of Montana.

His discussion at 8 p.m. Monday in room 11 of the Liberal Arts Building will deal with the conversion of light energy into chemical energy within plant cells.

The speaker holds a doctorate in botany from the University of Illinois and from 1954-63 he was a professor of biochemistry at Cornell University.

Dr. Richard P. Sheridan, an assistant professor of botany at UM, will be master of ceremonies at Monday's session, which is open to the public without charge. Dr. Charles N. Miller Jr., also an assistant professor of botany at UM, is coordinating Dr. Gibbs' visit to Missoula.

Dr. Gibbs' visit is sponsored by the Sigma Xi science honorary and the Scientific Research Society of America in conjunction with the UM Public Exercises Committee.
